ABOUT ME

UI/UX designer and web development student at Langara College in Vancouver, Canada, focused on creating digital products that are clean, user-friendly, and solve real-world problems.

Completed a Bachelor of Science in India before moving to Canada to study Web and Mobile App Design and Development, working on projects spanning UX research, wireframing, prototyping, and responsive web design.

WORK EXPERIENCE

Pharmacy Assistant

Sep 2020 — Present

Total Care Rx Pharmacy

Supporting daily pharmacy operations alongside full-time studies, building strong attention to detail, customer communication, and reliability under pressure.

SELECTED PROJECTS

Reano Room

UI/UX Designer · Figma, Miro

Home design & visualization app helping renters and homeowners preview furniture and colors before purchasing — mood boards, AR furniture preview, wall-color changes, and wishlists.

- User Research
- Wireframes
- Hi-Fi Mockups
- Usability Testing

BloomUp

UX Designer · Figma, FigJam

Parenting support platform connecting new parents with trustworthy resources, expert advice, milestone tracking, and community support.

- User Interviews
- Journey Mapping
- Prototypes
- User Testing

TrailQuest

UI/UX Design

Mobile app helping hikers discover trails, plan adventures, navigate safely, and track hiking activity.

- UX Research
- Prototyping
- User Testing

HTML & CSS Portfolio Website

Designer & Developer

Fully responsive personal website built from scratch using HTML5, CSS3, Flexbox, and CSS Grid.

Character Design Project

Character Designer

Game character designed through both visual-first and story-first approaches, resulting in a consistent visual style with a supporting narrative.
